SiltPocket Assembly

SiltPockets are easy and quick to assemble by simply following the guide below

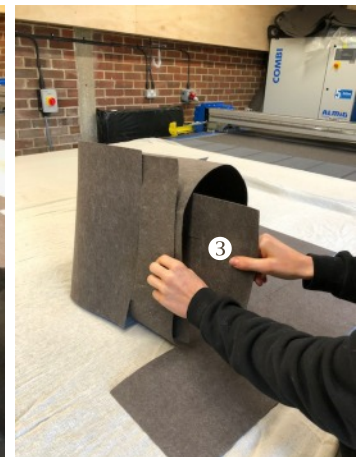

a). On left hand side lift inside panel (1) up

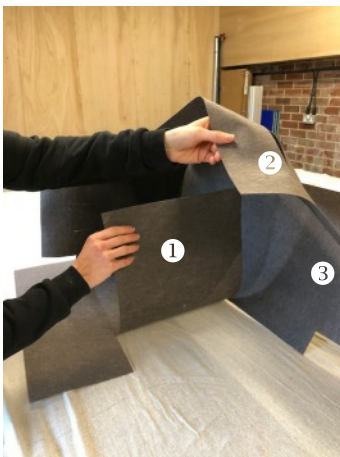

b). Lift outside panel (2) up and over inside panel (1) so they overlap and slots line

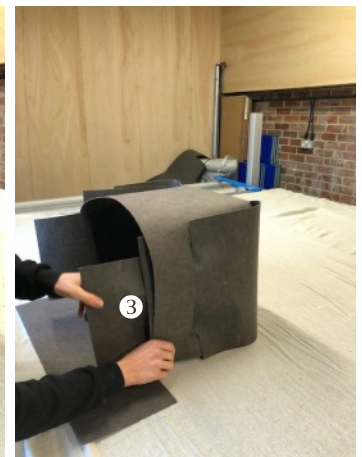

c). Thread post sleeve (3) through slots in (1) and (2)

d). Pull post sleeve (3) through slot until edge butts up against slot

e). Repeat steps for right side

Application Categories: Sediment Pollution Control | Surface Erosion Control
