Pro-Tex™ Vented Bulk Bags

Pro-Tex™ Vented Bulk Bags can be used for dewatering and filtering sludge. The vents allow water to drain whilst trapping sediment and debris.

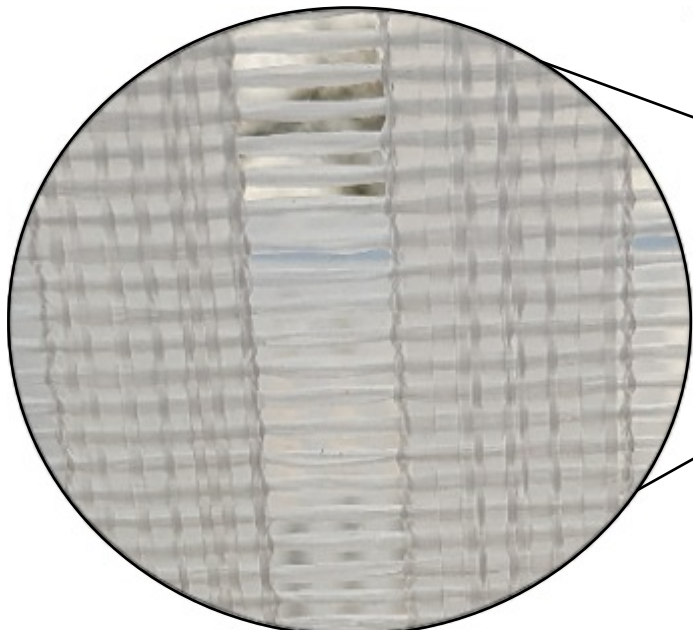

The double lifting loops then make handling easier when plans are made to manoeuvre the bag.

Features/Benefits:

- Double lifting loops in each top corner
- All sides and base vented
- Open top
- Flat bottom
- 1250kg SWL 6:1SF
(Safe working load with a 6:1 safety factor)
- Custom sizes and designs available

Feature	Pro-Tex™ Vented Bulk Bags
Application	Sediment Filter
Bag Size	Approx 0.95 x 0.95 x 0.95m

Application Categories: Sediment Pollution Control
